Product Overview

Advanced DC Pedestal Fan

This 14-inch pedestal fan utilizes a high-efficiency brushless digital DC motor to deliver powerful airflow while maintaining whisper-quiet operation. Designed for modern living, it features 3D oscillation, 12 speed settings, and intelligent wind modes to ensure optimal comfort in any environment. With an intuitive touch panel, remote control, and energy-saving performance, this fan is an ideal solution for efficient air circulation.

Performance & Power

Noise Level

35 dB

Max Noise Level

Power Consumption	30 W
Maximum Wind Speed	6 m/s
Input Voltage	DC 12V/3A

Features & Controls

Oscillation Angles

- Horizontal: 30°, 60°, 90°
- Vertical: Up 90°, Down 10°

Speed Settings	12
Wind Modes	Normal, Natural, Sleep
Timer Duration	1-16 hours

Physical Specifications

Battery Performance

Setting	Runtime
Lowest Speed	10 hours
Highest Speed	2.5 hours

Blade Diameter	14 inch
