

# 14-Inch DC Motor Pedestal Fan with Remote Control

This 14-inch pedestal fan utilizes a brushless DC motor for efficient and quiet operation. It features 12 speed settings, a remote control, a 15-hour timer, and three wind modes: normal, nature, and sleep.

## Product Overview

### Efficient Cooling Solution

This 14-inch pedestal fan utilizes an advanced outer rotor brushless DC motor to deliver efficient and quiet performance. Designed for versatility, it features 12 distinct speed settings and three wind modes to accommodate various environmental needs. With a convenient remote control and a 15-hour timer, this unit provides flexible operation for home or office cooling.

## Technical Specifications

Power Consumption	24 W
Motor Type	Outer rotor brushless DC motor
Power Adapter	DC24V
Fan Size	14 inch

## Features

### Control Options

Remote Control • 15-Hour Timer

Speed Settings	12
Wind Modes	Normal, Nature, Sleep

## Logistics

Package Dimensions	870 x 170 x 365 mm
Quantity per 40HQ Container	1210
