

1/4 Inch Pipe Connector with 8x12mm Outlet

This connector is designed for secure and reliable pipe connections. It features a 1/4 inch inlet and 8x12 mm outlet dimensions for compatibility with various piping systems.

Product Overview

Precision Pipe Connector

This precision-engineered connector is designed to provide secure and reliable connections within various piping systems. Featuring a 1/4 inch inlet and an 8x12 mm outlet, it ensures compatibility across a wide range of industrial setups. Its durable construction offers long-lasting performance and resistance to corrosion, making it an ideal choice for pneumatic, hydraulic, and fluid transfer applications.

Technical Specifications

Key Features

Corrosion Resistant • Secure Connection • Durable Construction

| | |
|---------------------------|--------------------------------------|
| Inlet Size | 1/4 inch |
| Outlet Dimensions | 8 x 12 mm |
| Application Compatibility | Pneumatic, Hydraulic, Fluid Transfer |
