

14-Inch Rechargeable Oscillating Fan with LED Night Light

This rechargeable fan provides portable cooling with its 14-inch oscillating design. It features a rechargeable 12V7.5AH battery and a built-in 2-LED night light, operable in both AC and DC modes.

Product Overview

Portable Cooling and Lighting Solution

This 14-inch oscillating fan offers versatile cooling options for both indoor and outdoor environments. Designed for reliability, the unit features dual AC/DC operation and a long-lasting rechargeable lead-acid battery. It provides added utility through its integrated LED night light, making it a dependable choice for emergency situations and everyday use.
