

140L 5 CUFT Stand Cement Mixer

This 140L (5 cubic feet) stand cement mixer is designed for efficient and reliable concrete mixing. Featuring a durable steel drum and a powerful electric motor, it ensures thorough mixing for various construction applications.

Product Overview

Professional Grade Cement Mixing

This 140L stand cement mixer is engineered for reliability and efficient concrete preparation on construction sites. Featuring a rugged all-steel construction, it is built to withstand demanding environments while providing consistent mixing performance. The unit is highly portable, equipped with rubber wheels for easy transport, and offers a versatile 360-degree drum rotation for precise pouring in any position.

Technical Specifications

Motor Power

0.5 HP
Motor

Drum Capacity	140 L
Capacity (Cubic Feet)	5 cu ft
Drum Rotation Speed	23 RPM
Batch Output	275 lbs

Electrical Requirements

Input Voltage	120V-230V
Frequency	50Hz-60Hz

Design & Features

Construction	Rugged all-steel
Mobility	10-inch rubber wheels, Easy transport
Assembly	Assembles/disassembles in minutes
Pouring Mechanism	360-degree rotation on frame post
