

1.4462 UNS S31803 Stainless Steel Seamless Elbow

This seamless elbow is made from high-quality 1.4462 stainless steel. It offers excellent corrosion resistance and durability for demanding applications.

Product Overview

High-Performance Duplex Elbow

This 1.4462 UNS S31803 stainless steel elbow is engineered for demanding industrial piping systems requiring superior corrosion resistance and durability. Designed to meet stringent ASME B16.9 standards, this component ensures seamless integration and reliable flow control. Its robust construction makes it an ideal choice for high-pressure and corrosive environments.

Technical Specifications

Material Grade

1.4462 • UNS S31803

Size Range

1/2 inch - 48 inch (DN12 - DN1200)

Manufacturing Standard

ASME B16.9, ASTM A815, ASTM A406

Configuration

Seamless Elbow
