

149cc Air-Cooled Cargo Tricycle

This cargo tricycle is equipped with a 149.4cc single-cylinder, air-cooled engine and a five-speed manual transmission plus reverse. It has a maximum loading capacity of 270kg and is suitable for container loading.

Overview

Robust Cargo Solutions

The QP150ZH-1 is a highly efficient 149cc air-cooled cargo tricycle engineered for reliable heavy-duty transportation. Combining a powerful 9.5 kW engine with a durable 5-speed manual transmission, it offers the perfect balance of performance and fuel economy. Its 270 kg load capacity and agile handling make it an ideal choice for professional logistics and short-haul distribution needs.
