

14V 50A Automotive Alternator

This 14V 50A automobile generator is designed for various automotive applications. It features a 1V pulley and a three-hangfoot mounting configuration with a hangfoot distance of 77.5mm.

Product Overview

High-Performance 14V 50A Automotive Alternator

The JFZ155 is a robust 14V 50A automobile generator engineered for reliable power delivery in various automotive applications. Featuring a standard 1V pulley and a precise three-hangfoot mounting configuration, it ensures compatibility and ease of installation. This unit is built to meet demanding electrical requirements, making it an essential component for vehicle maintenance and repair.

Technical Specifications

Output Voltage	14 V
Output Current	50 A
Model Number	JFZ155
OEM Reference	0120489710

Mechanical Configuration

Pulley Type	1V
Mounting Style	Three-hangfoot
Hangfoot Distance	77.5 mm
