

# 1.5-1.8T Counterbalanced Lithium Battery Forklift

This lithium battery forklift features an axle box integrated structure design for models 1-3.5 T, ensuring high transmission efficiency and low noise. One full charge provides a 25% increase in operation time.

## ADDITIONAL IMAGES

## Product Overview

### High-Efficiency Lithium Power

This 1.5-1.8T counterbalanced forklift is engineered for versatile material handling in both indoor and outdoor industrial environments. Powered by an advanced lithium battery system, it offers extended run times and rapid charging capabilities to maximize operational uptime. The design prioritizes operator productivity through an ergonomic cabin, robust chassis construction, and integrated safety systems including load sensors and stability control.

## Performance Metrics

### Load Capacity

**1.5 T**

Minimum Capacity

**1.8 T**

Maximum Capacity

## Technical Features

### Power Source

Lithium Battery • Electric

### Safety Systems

- Load sensors
- Stability control
- Operator presence detection

## Operational Details

### Application Suitability

Indoor, Outdoor, Material Handling
