

15 Bar Stainless Steel Espresso and Cappuccino Maker

This espresso and cappuccino maker uses either coffee pods or ground coffee with its SUS filter holder. Two switches with indicator lights allow for making one or two cups of coffee.

Overview

Professional Espresso Experience

This 15 Bar Stainless Steel Espresso and Cappuccino Maker combines high-pressure extraction with a durable, modern design. Equipped with an Italian pump system and a versatile steam wand, it allows users to craft barista-quality espresso, cappuccinos, and lattes at home. The unit is designed for convenience, featuring a removable water tank, easy-clean drip tray, and safety mechanisms for overheating and overpressure protection.
