

# 15-Bottle Single Zone Wine Cellar with Digital Display

This single zone wine cellar features soft touch controls and an electrical display. It has a stainless steel frame and a tempered glass door with a stainless steel handle, along with soft interior lighting and slide-out shelves.

## Product Overview

### Professional Wine Preservation

This 15-bottle single zone wine cellar offers an optimal storage environment for your collection, featuring precise thermoelectric cooling. The unit is equipped with a digital temperature display that allows for easy adjustments to suit various wine varietals, ensuring each bottle remains at its ideal serving temperature. Designed with aesthetics and functionality in mind, it includes elegant wooden shelves and an interior LED light to perfectly showcase your wine.
