

15-Degree Coil Nailer for Siding

This pneumatic coil nailer is designed for siding applications. It features a lightweight magnesium housing and can fire both plastic and wire collated nails.

Overview

Professional Siding Coil Nailer

This 15-degree coil nailer is engineered for high-efficiency fastening in demanding construction environments. It is versatile enough to handle decking, siding, sheathing, and roof decking applications with ease. Designed for reliability, this tool supports a wide range of fastener lengths and diameters, ensuring compatibility with standard project requirements.

Performance Metrics

Operating Pressure

70 psi

Min Pressure

110 psi

Max Pressure

Magazine Capacity

400 pcs

Physical Dimensions

Dimensions

280 x 130 x 335 mm

Weight

2.5 kg

Fastener Specifications

Fastener Compatibility

Type	Length Range
Plastic collation	32-65 mm
Wire collation	45-90 mm

Fastener Diameter

2.3 - 2.87 mm

Head Diameter

4.8 - 7.0 mm

Applications

Primary Applications

Decking, Siding, Sheathing, Subfloors, Roof decking
