Product Overview

Professional Grade Combination Wrench

This drop-forged combination wrench is engineered for durability and reliability in demanding mechanical environments. Featuring a 15-degree offset on both the open-end and box-end, it provides superior access to fasteners in tight spaces. Constructed from high-quality alloy steel, this tool is designed to deliver optimal torque while minimizing slippage, making it an essential addition for automotive repair and machinery maintenance.

Technical Specifications

Manufacturing Process

Drop-Forged

Wrench Size	17 mm
Box-End Configuration	12-point
Offset Angle	15 degrees
Material	Alloy Steel

Applications

Primary Applications

- Automotive repair
- Machinery maintenance
- General purpose fastening
