

# 15 Gauge Pneumatic Angle Finish Nailer

This pneumatic angle finish nailer is designed for driving 15 gauge finish nails up to 2-1/2 inches in length. It features an angled magazine for accessing tight corners and detailed trim work.

## Overview

### Professional 15 Gauge Pneumatic Angle Finish Nailer

This pneumatic angle finish nailer is engineered for high-precision interior and exterior trim work, featuring a 34-degree angled magazine to access tight corners with ease. It supports 15-gauge fasteners ranging from 32mm to 64mm, making it ideal for cabinetry, staircases, and furniture assembly. Built with a durable housing and a no-mar tip, this tool ensures clean finishes while protecting delicate work surfaces during extended professional use.
