Product Overview

High-Performance 1.5-Inch Gasoline Water Pump

This robust 1.5-inch gasoline water pump is engineered for reliable performance in irrigation, construction, and general water management tasks. Powered by a 4-stroke, air-cooled OHV engine, it ensures efficient water displacement and durability under continuous use. The unit features advanced safety mechanisms like an integrated oil alert system and is backed by a professional 2-year warranty.

Technical Specifications

Engine Specification	4-stroke, OHV, single cylinder, air-cooled
Pump Size	1.5-inch
Warranty Period	2 years or 600 working hours

Features & Compliance

Safety Systems

- Oil alert system protection
- Automatic engine shutdown on low oil
- 100% factory performance testing before delivery

Configuration Options

Recoil Start • Electric Start • OEM Available

Global Certifications	CE, EURO V, EPA, ISO 9001:2015
