Product Overview

Efficient Water Transfer Solution

This 1.5-inch gasoline-powered water pump is engineered for reliable performance in irrigation and drainage tasks. Featuring a robust 105cc engine, it delivers consistent flow rates suitable for various agricultural and general water transfer applications. Its compact design and balanced weight make it a practical choice for professional users requiring portability and power.

Performance Metrics

Key Performance Indicators

11 m³/h
Flow Volume

18 m
Lift Head

7 m
Suction Head

Technical Specifications

Engine Displacement	105 cc
Inlet/Outlet Diameter	38/38 mm
Fuel Tank Capacity	1.4 L / 0.45 G

Logistics & Dimensions

Dimensions and Weight

Metric	Value
Dimensions	355x315x395 mm
Gross Weight	11.5 kg
Net Weight	10 kg

Container Loading Capacity

- 20GP: 715 units
- 40HQ: 1720 units
