Product Overview

Premium LED Automotive Lighting

This high-class OEM headlamp is engineered with 15 advanced LEDs to provide superior illumination and enhanced road visibility. Designed specifically for optimal performance, the unit ensures energy efficiency and durability while maintaining a seamless fit with the vehicle's electrical system. It is an ideal solution for automotive upgrades, prioritizing driver safety and long-lasting operational reliability.

Technical Specifications

Manufacturing Standards

OEM Standard

Number of LEDs

15

Vehicle Compatibility

REVO 15, HILUX

Key Features

Core Performance Benefits

- Enhanced road visibility and safety
- High energy efficiency
- Seamless electrical system integration
- Durable construction for long-term performance
