Product Overview

Versatile 15L Portable Thermal Solution

This 15-liter portable thermoelectric unit offers both cooling and warming capabilities, making it an ideal companion for travel, office, or home use. Utilizing advanced semiconductor technology, it operates without refrigerants, ensuring a compact and eco-friendly design. With dual power compatibility for both AC and DC sources, it provides reliable temperature control for beverages and food items wherever you go.

Key Performance

Key Performance Metrics

15 L

Capacity

60 W

Max Power

18 °C

Cooling Differential

Technical Specifications

Model Number	BCR-15
Storage Capacity	15 liters (approx. 17 x 330ml cans)
Material	ABS and PS
Cooling System	Thermoelectric semiconductor module

Temperature Control

Cooling Performance	18°C to 25°C below ambient temperature
Heating Performance	50°C to 60°C via set-point thermostat

Power & Connectivity

Input Voltage

- 12V DC (Cigarette Lighter)
- 110V AC (with adapter)
- 230V AC (with adapter)

Included Cables

Connection Type	Length
AC Power Cable	1.8m
DC Power Cable	2.8m

Dimensions & Weight

Unit Size (DxWxH)	35.0 x 29.0 x 44.0 cm
Net Weight	5.54 kg

Logistics & Packaging

Standard Packaging	1 pc per PE bag in a gift box (38.0 x 30.6 x 46.5 cm)
Container Capacity (20'GP/40'GP/40'HQ)	480 / 990 / 1160 PCS

Compliance & Certifications

Certifications

CE • GS • RoHS • REACH • LFGB • E-MARK
