

15-Person Inflatable Emergency Life Raft

This inflatable life raft is designed to accommodate up to 15 people in emergency situations. It features a double hull construction for enhanced stability and an orange canopy for visibility.

Overview

Professional Emergency Life Raft

This 15-person inflatable life raft is engineered for critical emergency situations at sea, prioritizing safety and reliability. Featuring a durable double-hull construction, it provides exceptional stability and buoyancy when needed most. The high-visibility orange canopy ensures the raft is easily spotted by rescue teams while offering essential protection against harsh environmental elements.
