

1500KG Wheel Front Loader

This wheel front loader is a compact construction machine designed for efficient material handling. It features a robust chassis and a hydraulic system optimized for lifting and loading tasks.

Product Overview

Compact Performance Loader

The ZL-15 wheel loader is a versatile and compact construction machine engineered for efficient material handling. Designed with a robust chassis and powerful hydraulics, it is ideal for moving earth, gravel, and bulk materials in both landscaping and urban construction environments. Its compact design ensures excellent maneuverability in confined spaces while providing the operator with enhanced visibility and ergonomic controls.

Technical Specifications

Rated Load

1500 kg
Rated Load

Bucket Capacity	0.6 m3
Operating Weight	2800 kg
Unloading Height	2900 mm

Engine & Drive

Engine Model	490 Weifang
Rated Power	30 kw
Rated Speed	2400 r/min
Drive Train	Four Wheel Drive
Steering System	Hydraulic steering

Dimensions & Maneuverability

Dimensions (L x W x H)	4800 x 1600 x 2700 mm
Minimum Turning Radius	3500 mm
Maximum Speed	20 km/h
