

1500VA Automatic AC Voltage Stabilizer

This AC automatic voltage stabilizer provides a stable voltage output. It features a digital display and multiple power outlets.

Product Overview

Professional AC Voltage Stabilization

This 1500VA automatic voltage regulator is engineered to provide a stable AC power supply for sensitive electronics and industrial equipment. It features high-precision dual-voltage output (220V/110V) and advanced internal control circuitry to protect against fluctuations. Designed for reliability, the unit combines a quality copper coil and a durable carbon brush system to ensure consistent performance and longevity.

Electrical Specifications

Detailed technical specifications and internal component quality overview.

Performance Key Metrics

1500 VA

Capacity

8 A

Rated Current

90 %

Efficiency

Voltage Parameters

Parameter	Value
Input Voltage Range	150V-250V (Option 110V-250V)
Output Voltage 1	220V \pm 3%
Output Voltage 2	110V \pm 3%
Frequency	50Hz/60Hz

Operational Conditions

Operating Environment

- Ambient Temperature: -10°C to +40°C
- Relative Humidity: <90%
- Insulation Resistance: >5 M Ω
- Power Factor: 0.8

Safety & Design

Protection Features

Fuse Protected, Digital Display, Dual Voltage Ports, Over-voltage Protection
