Product Overview

High-Efficiency Power Conversion

This 1500W power inverter is designed to convert 12VDC battery power into reliable 230VAC, 50Hz electricity. Engineered for versatility, it features a modified sine wave output suitable for a wide range of standard electronic devices and appliances. Additionally, the unit includes a dedicated USB charging port, making it a convenient solution for powering mobile devices and small electronics in off-grid or mobile environments.

Electrical Specifications

Rated Power

1500 W
Rated Power

Waveform Type

Modified Sine Wave

Input Voltage

12V DC

Output Voltage

230V AC

Output Frequency

50 Hz

Connectivity & Features

Supported Applications

- Mobile device charging
- General electronic appliances
- Off-grid power supply

USB Charging Port

5V DC / 2A
