

1500W Powered Speaker with 15-Inch Woofer

This self-powered loudspeaker provides efficient amplifier power and rugged durability. It is designed with a 15-inch woofer, a 6.5-inch midrange driver, and a 1.5-inch compression driver.

Product Overview

Professional Sound Reinforcement

The 1500W powered speaker is engineered for demanding audio environments where high ambient noise and loud volumes are standard. Built for durability and versatile performance, this loudspeaker utilizes tour-tested technology to ensure reliable operation in live sound reinforcement. It delivers high-fidelity, full-range audio designed to meet the needs of professional sound systems.
