

1500W Steam Cleaner with 1.5L Tank

This steam cleaner uses 1500W of power to generate high-temperature steam for effective cleaning. It has a 1.5L water tank capacity and is suitable for various household surfaces.

Product Overview

Professional-Grade Steam Cleaning

This 1500W steam cleaner provides a robust solution for maintaining hygiene in residential and professional environments. Utilizing high-temperature steam at 3.5-4.0 Bar, it effectively sanitizes and removes dirt from various surfaces without the need for harsh chemicals. Its versatile design and included accessory kit make it ideal for cleaning floors, furniture, kitchens, and vehicles.
