

150cc Cargo Motor Tricycle

This cargo motor tricycle is equipped with a 150cc engine, providing ample power for hauling loads. The frame is constructed from heavy-duty steel for durability and reliability.

Overview

Rugged Cargo Transportation Solution

The 150cc Cargo Motor Tricycle is a durable utility vehicle engineered for efficient load transport. It features a reliable motorcycle-style front end paired with a heavy-duty steel frame to ensure performance in demanding environments. Equipped with a cargo bed designed for easy loading, this vehicle is an ideal choice for various small-scale logistics and hauling applications.
