Product Overview

Reliable Power Generation

This 150kW low-noise diesel generator set is engineered for consistent and efficient power delivery in diverse environments. Featuring a robust diesel engine and high-performance alternator, the unit is housed in a sound-attenuating enclosure to minimize operational noise. Designed for ease of use and maintenance, it includes a comprehensive control panel for real-time monitoring of critical engine and electrical parameters.

Technical Specifications

Rated Power

150 kW
Rated Power

Engine Type	Diesel
Alternator Insulation Class	Class H
Speed Governor	Mechanical

Protection & Durability

Protection Ratings

- Canopy: IP44
- Control Panel: IP56

Key Features	Low Noise Design, Sound-Attenuated Enclosure, Heavy-Duty Base Frame, Automatic Voltage Regulation, Overload Protection, Low Oil Shutdown
