

# 150Mbps USB WiFi Dongle

This USB WiFi dongle is designed for use on IP devices. It supports WEP64/128, WPA, WPA2, and WMM security protocols.

## ADDITIONAL IMAGES

## Product Overview

### Compact 150Mbps Wireless Solution

This high-performance USB WiFi dongle utilizes the reliable Ralink RT3070 chipset to deliver stable wireless connectivity at speeds up to 150Mbps. Designed for versatility, it supports 802.11b/g/n standards and operates on the 2.4GHz ISM band. The compact, built-in PCB antenna design makes it an ideal choice for integrating wireless capabilities into desktops, laptops, and embedded systems.

## Technical Specifications

### Hardware Specs

**150 Mbps**

Peak Speed

**2.4 GHz**

Frequency

**5 V**

Voltage

### Compatible Systems

- Windows CE
- Windows 2000/XP/Vista
- Linux
- Mac OS X

### Supported Security

WEP 64/128, WPA, WPA2, 802.1x, Cisco CCS

## Operating Conditions

### Temperature Range

Condition	Range
Operating	0°C - 50°C
Storage	-20°C - 70°C

## Certifications

### Compliance

Wi-Fi Certified • WHQL • Cisco CCX • USB-IF
