

150N Neoprene Marine Immersion Suit with Buoyancy Pillow

This marine immersion suit is constructed from 5mm thick neoprene. It features an integrated buoyancy pillow, eliminating the need for an extra lifejacket.

Overview

Professional Marine Safety & Survival

This 150N Neoprene Marine Immersion Suit is engineered for critical survival in harsh aquatic environments, providing essential thermal protection and buoyancy. Constructed from high-durability waterproof materials, the full-body design includes an integrated hood, gloves, and boots to ensure complete coverage and heat retention. Designed for rapid deployment on ships and offshore platforms, it features a front zipper closure for quick donning during emergency maritime situations.
