Overview

Reliable Propulsion for Small Watercraft

This 159cc 4-stroke outboard motor is engineered for efficiency and durability, providing a dependable power source for small boats, dinghies, and inflatables. Its air-cooled design simplifies maintenance by eliminating the need for a water pump, ensuring consistent engine temperatures even in demanding conditions. Designed with portability in mind, it features an easy-start system and a compact build, making it an ideal choice for recreational boating and fishing.

Engine Specifications

Displacement

159 cc

Displacement

Cooling System

Air-Cooled

Engine Type

4-Stroke

Fuel Type

Gasoline

Key Features

Performance Features

- Easy start system for quick operation
- Efficient fuel consumption
- Durable construction for long-lasting use
- Compact and lightweight design
- Simplified maintenance (no water pump required)

Applications

Recommended Usage

- Primary propulsion for small vessels
- Auxiliary power
- Recreational boating
- Fishing

Suitable Vessels

Small Boats, Inflatable Boats, Dinghies, Small Watercraft
