

15kV Outdoor Distribution Fuse Cutout

This outdoor expulsion drop-out type distribution fuse cutout is rated for 15kV. It protects power systems from overload and short-circuit failures.

Overview

Reliable Distribution Protection

This 15kV Outdoor Expulsion Drop-out Fuse Cutout is a robust protection device designed to safeguard power systems from overload and short-circuit failures. Engineered for outdoor distribution environments, it features high over-current protection and exceptional mechanical strength to ensure long-term reliability. The drop-out mechanism provides clear visual indication of fault conditions, facilitating efficient maintenance and fuse replacement.

Technical Ratings

Key Performance Metrics

15 kV Nominal Voltage	100 A Rated Current
---------------------------------	-------------------------------

Voltage Rating Range	11kV - 27kV
Standards Compliance	IEC 600282-2

Product Features

Key Features

- High over-current protection capability
- High breaking current capacity
- High industrial frequency withstand voltage
- Superior mechanical strength
- Strict quality testing protocols

Logistics & Supply

Shipping & Packaging

Category	Details
Packaging	1 pc per foam-lined carton, palletized
Lead Time	Regular delivery in 35 days
Loading Ports	Ningbo, Shanghai, or any China port
Shipping Options	Sea, Air, or Express

Accepted Payment Terms

T/T • L/C
