Overview

Reliable 15kW Power Solution

The GF-15KW diesel generator is a robust and reliable power solution designed for demanding applications such as construction sites, remote locations, and backup power needs. It features a heavy-duty diesel engine coupled with a high-efficiency alternator to provide stable 50Hz power output. Equipped with a SmartGen control panel and comprehensive safety features, this unit ensures easy operation and long-lasting performance in various environments.

Performance

Rated Power Output

15 kW

Rated Power

Frequency

50 Hz

Engine & Maintenance

Engine Features

- Heavy-duty diesel engine
- High-efficiency alternator
- Radiator cooling system
- Electric start with battery included
- Anti-vibration mounts

Oil Filter Specification

30810 OIL FILTER CC 190

Control & Safety

Control Panel	SmartGen digital control panel for monitoring and operation
Safety & Protection	Emergency Stop, Overload Protection, Low Oil Shutdown, Voltage Regulation, Frequency Regulation

Physical Construction

Mobility & Transport	Sturdy Frame • Portable Design
Frame Construction	Heavy-duty steel frame with integrated mounting for stability

Applications

Recommended Applications

- Backup Power
- Construction Sites
- Remote Locations
- Industrial Environments
