

15kW Silent Diesel Generator Set

This silent diesel generator set provides high efficiency and durable performance. It has a 15kW output and is designed for reliable power generation in various applications.

High-Efficiency Silent Power Generation

This 15kW silent diesel generator set is engineered for high efficiency and long-term durability in professional environments. Designed with a sound-dampening enclosure, it achieves a low noise level of 67 dBA at 7 meters, making it ideal for noise-sensitive applications. With a robust 80L fuel tank and a consumption rate of 0.3 L/kWh, it provides a reliable and cost-effective power solution for backup or continuous use.

Performance Metrics

Core Performance

15 kW

Rated Power

65 A

Rated Current

80 L

Fuel Tank Capacity

Electrical Specifications

| | |
|---------------|-------------|
| Rated Voltage | 220V - 400V |
| Frequency | 50Hz, 60Hz |

Control & Safety

Integrated ComAp control panel with digital display and emergency stop safety feature.

Internal electrical cabinet featuring MCBs and RCCB for comprehensive circuit protection.

Safety & Protection

- Emergency stop button
- Overload protection
- Low oil shutdown
- Miniature Circuit Breakers (MCBs)
- Residual Current Circuit Breaker (RCCB)

Control System

COMAP MRS10 / IntelliLite 9

Operational Data

Compact and robust enclosure designed for durability in various environments.

Noise Level

67 dBA at 7 Meters

Fuel Consumption

0.3 L/kWh

Compliance & Origin

Certifications

CE

Place of Origin

China

PACKING & SHIPPING

Standardized packing and shipping procedures for international delivery.

Secure Transport

Units are professionally packaged in reinforced cardboard boxes and handled via forklift to ensure structural integrity during truck and container transit.
