

1.5L 6-Speed Kitchen Blender

This kitchen blender features a 1.5L capacity glass jar. It offers six speeds and a pulse function, powered by a 600-800W motor.

Product Overview

Professional Performance

The 1.5L 6-Speed Kitchen Blender is a versatile appliance engineered for consistent blending results in professional or home kitchens. With a robust 600-800W motor and a clear glass jar, it offers both durability and high-performance operation. The inclusion of six speed settings and a pulse function provides users with precise control over texture and consistency for a wide variety of ingredients.
