

1.5L Cordless Electric Kettle with Auto Shut-Off

This electric kettle quickly and efficiently boils water. It features a cordless design, automatic shut-off, and a keep-warm function.

Overview

Efficient Boiling Solution

This 1.5L cordless electric kettle is engineered for both speed and safety in a professional or office environment. Featuring a dual-wall construction, it provides excellent thermal insulation while keeping the exterior safe to touch. With integrated features like automatic shut-off and a keep-warm function, it offers reliable performance and convenience for daily use.
