

1.5L Double-Walled Electric Kettle

This electric kettle is designed for boiling water quickly. It features a double-walled construction for insulation, keeping water hot longer and the exterior cool to the touch.

Product Overview

Efficient & Safe Boiling

This 1.5L double-walled electric kettle is engineered for rapid heating and superior insulation, keeping your water hot while ensuring the exterior remains cool to the touch. Built with food-grade stainless steel and BPA-free components, it prioritizes user health and safety. With convenient features like a cordless detachable base and automatic shut-off, this appliance is a reliable addition to any kitchen or office environment.
