

1.5P AC Contactor with 24V Coil

This AC contactor is designed for 1.5P air conditioning units. It features a 24V coil and robust construction for reliable performance in HVAC&R applications.

Overview

High-Performance 1.5P AC Contactor

Designed specifically for demanding HVAC&R applications, this 1.5P AC contactor ensures reliable operation in air conditioning systems. It features a robust EE magnet assembly for optimal performance and a dust-free internal construction that enhances longevity. With universal mounting capabilities and flexible termination options, this component is engineered for easy replacement and seamless integration into various electrical setups.

Contact Ratings Per Pole

Voltage (VAC)	FLA	LRA	RES
240/277	30	180	40
480	30	150	40
600	30	120	40

Technical Specifications

Coil Voltage	208/240V AC
Operating Frequency	50/60Hz
Compliance	ARI 780/790, IEC60947-4-1, UL Certified, CE Certified

Installation

Torque Specifications (CU 75°C)

- Screws: 22 in-lbs
- Lugs: 40 in-lbs

Mounting Type

Universal metal mounting plate
