

1.5T Electric Stacker for Palletized Goods

This electric stacker is engineered for lifting and transporting palletized goods within warehouses and industrial spaces. It is capable of stacking operations and short-distance transport of loads up to 1.5 tons.

Overview

Efficient Material Handling Solution

This electric pallet stacker is engineered for reliable lifting and transporting of palletized goods within demanding warehouse and industrial environments. Featuring a robust mast design and ergonomic controls, it ensures both operational efficiency and operator comfort. Its compact build allows for excellent maneuverability in tight spaces, making it an ideal choice for optimizing storage density and streamlining short-distance transport tasks.

Performance Metrics

Rated Capacity

1500 kg

Rated Capacity
