

1.5V D Type Carbon Zinc Battery

This 1.5V D type R20 carbon zinc battery is suitable for low-drain applications. It provides a stable voltage output throughout its discharge cycle and is constructed with a robust metal casing.

Product Overview

Reliable Power for Everyday Devices

This 1.5V D-type (R20) carbon-zinc battery is engineered for consistent performance in low-drain household electronics. Featuring a leakage-proof design and mercury, cadmium, and lead-free construction, it offers an environmentally conscious and safe power solution. With a shelf life of up to 3 years and a robust PVC jacket, it is a dependable choice for flashlights, toys, calculators, and clocks.

Technical Specifications

Nominal Voltage	1.5 V
Battery Size	D / R20
Chemical System	Carbon Zinc
Shelf Life	3 years
Certifications	SGS, CE, RoHS

Logistics & Packaging

Packaging Configuration

Unit	Quantity
Shrink wrap	2
Box	12
Carton	240
Container (20ft)	1300

Typical Lead Time	25 days upon order confirmation
Accepted Payment Terms	T/T, L/C at sight

Safety & Usage

Usage Warnings

- Do not disassemble or expose to fire
- Do not mix with old cells or different battery types
- Ensure correct polarity during charging
- Store in a cool, dry place
- Discharge before bulk storage or shipment
- Stop use if abnormal behavior is detected
