

# 16-900KW Diesel Generator Set

This diesel generator set is engineered for reliable power generation. It features a robust diesel engine coupled with a high-efficiency alternator, providing a power range of 16 to 900KW.

## Overview

### Industrial Power Generation

This diesel generator set offers a versatile power range from 16KW to 900KW, making it suitable for a wide variety of industrial and commercial applications. Engineered for reliability, the system features a high-performance engine and premium alternator options to ensure consistent power delivery. With an advanced automatic control module and a durable, vibration-dampened base frame, this solution is designed for stable and efficient operation in demanding environments.

## Performance Metrics

### Power Range

**16 KW**

Minimum Output

**900 KW**

Maximum Output

## Technical Specifications

Engine Series	Yuchai
Available Alternator Brands	Stamford, Marathon, ENGGA
Control Module	Powertec GC 6110
Radiator Ambient Temperature Rating	40 °C

## Construction & Durability

### Base Frame Construction

- International channel steel welded base
- Inbuilt composite damping system
- Sandblast and acid-washed finish
- Antiseptic treatment
