

16-Inch Folding Bicycle

This folding bicycle features 16-inch wheels and a compact design for easy portability. Its folding frame and handlebars allow for minimal storage space when folded.

Product Overview

Compact Urban Mobility

The K-550 is a 16-inch folding bicycle engineered for maximum portability and convenience. Designed with a folding frame and handlebars, it minimizes space occupancy, making it an ideal solution for urban commuters and those with limited storage. This model balances compact design with reliable performance for daily riding needs.
