

16-Inch Oscillating Metal Stand Fan

This 16-inch metal stand fan features a matt black finish with wood color accents. It has a spiral guard, four metal blades, three-speed settings, and an oscillating function with a tiltable neck.

Overview

Professional Air Circulation

This 16-inch oscillating stand fan combines robust metal construction with a sophisticated matt black and wood-look finish, making it an ideal choice for both home and office environments. Engineered for efficiency, it features four aerodynamically designed metal blades and a 100% copper wire motor to ensure reliable, quiet performance. With three adjustable speed settings, a tiltable neck, and wide-area oscillation, this fan offers customizable comfort and superior air displacement.
