

# 16-Inch Steel Frame Children's Bicycle with Training Wheels

This children's bicycle has a 16-inch steel frame and a steel fork with an imitation downhill suspension design. It comes equipped with training wheels and front and rear caliper brakes.

## Overview

### Designed for Young Riders

This 16-inch children's bicycle is engineered with a durable steel frame, ensuring stability and longevity for beginner riders. Featuring an imitation downhill suspension fork and reliable front and rear caliper brakes, it offers both comfort and safety during playtime. The inclusion of training wheels makes this an ideal choice for children learning to ride, providing confidence and support.
