Overview

Professional Electric Knapsack Sprayer

This 16-liter electric knapsack sprayer is designed for efficient agricultural and garden maintenance, offering a consistent pressure system that eliminates the need for manual pumping. Equipped with a built-in voltmeter, it allows operators to monitor battery levels in real-time, ensuring uninterrupted workflow. The ergonomic knapsack design ensures comfortable portability, making it an ideal tool for applying water, pesticides, herbicides, and fertilizers in farms, greenhouses, and gardens.

Technical Specifications

Monitoring Features

Built-in Voltmeter

Tank Capacity	16 L
