

16-Ton Mobile Tire Crane

This 16-ton mobile crane features a telescopic boom for adjustable reach. Its tire-mounted chassis provides enhanced mobility for construction sites and industrial applications.

Product Overview

Versatile 16-Ton Mobile Tire Crane

This 16-ton mobile tire crane is engineered for efficient lifting operations across various construction and industrial environments. Featuring a robust telescopic boom with 8 sections, it offers an impressive maximum lifting height of 40 meters to handle diverse project requirements. The tire-mounted chassis ensures enhanced mobility, making it an ideal solution for sites requiring frequent relocation and reliable performance.

Performance Metrics

Max Lifting Capacity

16000 kg
