

1640x992 Monocrystalline Solar Panel

This high-efficiency monocrystalline solar panel is designed for optimal energy conversion, even in low light. It features durable construction for long-lasting performance in various conditions.

Product Overview

High-Efficiency Monocrystalline Solar Panel

This high-efficiency monocrystalline solar panel is engineered for optimal energy conversion in diverse environmental conditions. With a robust build designed for durability, it serves as a reliable solution for residential, commercial, and industrial energy systems. Its compact dimensions of 1640mm by 992mm allow for versatile installation while maintaining superior performance standards.

Technical Specifications

Dimensions	1640mm x 992mm
Power Tolerance	+3%
