Product Overview

High-Performance Concealed Hinge

This 165-degree concealed cabinet hinge is designed to provide wide, unobstructed access to cabinet interiors, making it an ideal choice for modern kitchen and furniture applications. Engineered for durability, the hinge features a robust steel or zinc alloy construction with a multi-layer nickel-plated finish to ensure long-term corrosion resistance. With its versatile compatibility for door thicknesses ranging from 12mm to 32mm, this hinge offers a reliable and adjustable solution for professional cabinetry installation.
