Overview

High-Performance Charging Solution

This 16.8V 20A Li-ion battery charger is engineered for reliable and efficient power delivery to 4S battery packs. Built with a durable aluminium alloy shell, it is designed for demanding applications including e-bikes, motorcycles, scooters, and various cleaning equipment. With its robust output and safety certifications, it provides a dependable charging solution for professional and industrial use.

Technical Specifications

Output Power

336 W

Output Power

20 A

Output Current

16.8 V

Output Voltage

Input Voltage Range

- 110-132VAC
- 200-264VAC

Battery Compatibility

Li-ion, 4S Series

Physical Properties

Dimensions and Weight

Attribute	Value
Size	173 x 90 x 51 mm
Net Weight	1.1 kg
Shell Material	Aluminium Alloy

Compliance and Usage

Certifications

CE

Compatible Applications

- Electric Bike
- Motorcycle
- Scooter
- Cleaner
- Golf Cart
- General Electric Vehicles

Warranty

12 months
