Overview

Modular AC Contactor

This modular contactor is designed for reliable remote switching and control of electrical loads, including heating systems, household appliances, and motors. Engineered for versatility, it supports AC 50/60Hz operations with a compact design suitable for DIN-rail mounting. It is an ideal solution for residential, commercial, and industrial electrical distribution boards.

Electrical Specifications

Rated Current

- 16
- 20
- 25
- 32
- 40
- 63
- 100

Rated Voltage	400 V
Rated Insulation Voltage (Ui)	500 V
Utilization Categories	AC-1, AC-7a, AC-7b

Mechanical & Environmental

Ingress Protection
IP20

Available Pole Configurations	1P, 2P, 3P, 4P
-------------------------------	----------------

Mounting Type	TH35-7.5 Steel DIN-Rail
---------------	-------------------------

Operating Temperature Range	5°C to +40°C
-----------------------------	--------------

Pollution Class	2
-----------------	---

Compliance & Features

Certifications
CB • CE • RoHS

Standards Compliance	EN61095, IEC61095
----------------------	-------------------
