Product Overview

Industrial Power Solutions

These professional-grade diesel generator sets provide a versatile power range from 16kW to 2000kW, suitable for both prime and backup power applications. Engineered for reliability, the units feature advanced control systems with multi-level protection to ensure stable operation and extended service life. With flexible configurations available, they are ideal for demanding environments including industrial facilities, commercial buildings, and emergency power requirements.

Performance Specifications

High-efficiency unit equipped with a comprehensive control panel for monitoring voltage, current, and frequency.

Durable industrial enclosure ensures reliable operation under diverse environmental conditions.

Output Power Range

16 kW

Minimum Power

2000 kW

Maximum Power

Key Features

Features include sound-dampening insulation and a shutter design for enhanced ventilation and rain protection.

Ideal Environments

- Telecommunications Facilities
- Hotels
- Hospitals
- Industrial Applications
- Construction Sites

Operational Highlights

Low Noise Design, Four-Protection Control System, Emergency Stop Function, Integrated Fuel Station, Weatherproof Shutter Design

Unit Configurations

Mobile trailer configuration featuring integrated lighting tower for construction and emergency response.

Generator Variations

Diesel Generator • Gas Generator • Marine Generator • Trailer-Mounted Generator • Lighting Tower
