

# 16V Cordless Drill Driver with Keyless Chuck

This 16V cordless drill driver is equipped with a keyless chuck, ensuring fast and simple bit replacements. It utilizes a 2Ah battery to deliver prolonged performance during drilling and driving tasks.

## ADDITIONAL IMAGES

## Overview

### Professional Cordless Performance

This 16V cordless drill driver is engineered for versatility and efficiency in various drilling and driving applications. It features a robust two-speed powder metallurgy gearbox and a convenient keyless chuck for rapid bit changes. Designed for professional use, it includes a built-in LED light for dark environments and a belt clip for easy portability during high-altitude operations.

## Technical Specifications

### Battery Capacity

**2 Ah**  
Capacity

Maximum Battery Voltage	16 V
Nominal Battery Voltage	14.4 V
Quick Charge Time	1 hour

## Features

### Key Features

- Built-in LED light for low-light conditions
- Two-speed powder metallurgy gearbox
- Keyless chuck for quick bit changes
- Integrated belt clip for portability
- Spindle lock mechanism

Safety & Protection	Short circuit protection, Battery capability indicator
